

Company Name: ProProcure Limited - www.proprocure.com

Job Title: Web Developer - Permanent - £ D.O.E. + Bonus + Healthcare + Pension + Training - Immediate Start

Location: Gerrards Cross, M40, Buckinghamshire, High Wycombe, Oxfordshire, Middlesex, Berkshire, Thames Valley, North West London

Skillset: C#, Angular 2+(or Exposure), TypeScript, webpack, REST API, TDD, HTML5, CSS3, SASS, WCF, Asp.Net/Vb.Net, NHibernate, SQL Server, SVN

Description:

We are an established industry-leading software house that develops a sophisticated customised web portal using Microsoft tools and technologies. Our platform is used globally by prestigious multinational clients and we have received international acclaim and awards for being the best of breed in terms of functionality, look and feel and quality

As the ideal candidate, you would have experience of working across the full development stack, specifically using Angular, webpack, C# and SQL Server. You will play a key part in the process of migrating to a new Angular 6 front end tech stack driven by RESTful .NET APIs, whilst supporting the existing ASP.Net platform.

This is a hands on programming role working in a team responsible for the development of end to end lifecycle of our systems, in addition, you should have good analytical & design skills and experience and ideas as you will form part of the technical group that discusses, develops and implements new functionality into our products and looks at new technical frameworks, including mobile and new web framework technologies.

We offer a relaxed yet challenging environment in an established and professional can-do culture, an accessible office location, and a supportive (Agile, Kanban) structured development team within a company which is just the right size that a candidate with the right ambition and ideas can really make a difference.
